SUMMARY

Python Web Developer. I specialize on back-end development by using Django framework. Also, I have used Django ORM and SQLite database in my projects. On top of that, I have basic knowledge and experience in HTML, CSS and Bootstrap.

STRENGTHS

Fast Learner

I learn new things and obtain new skill really quickly.

Bilingual

I speak Russian and English languages. Passed IELTS exam in the summer of 2021. My overall band is 7.5. I got 8.0 for speaking section specifically. I freely use both languages in daily conversations or during working process.

Friendly and Talkative

I can find common ground with new people easily. I am not afraid of talking with strangers.

Responsible

Not afraid of taking responsibilities.

Time Management

I can prioritize essential tasks and set deadlines to ensure that work is completed on time.
